

# LEARN FROM EXPERTS IN SEMICONDUCTOR AND SPECIALTY CHEMICALS INDUSTRY ON MANAGING GHG EMISSIONS

Online Zoom Webinar

JULY 29, 2020, 4PM Singapore (GMT+8)

4 QUALITY  
EDUCATION

## OUR PANELLISTS:

**Er. Lucas NG Hong Kiang**  
General Manager  
Petrochemical Corporation of  
Singapore (PCS)

### Ang Zhi Wey

Director, Global Facilities  
Innovation and Integration  
Micron Technology

**Er. Tan Seng Chuan**  
Managing Director  
TEMBUSU Asia Consulting (TAC)

### N. Sathishkumar

Senior Consultant  
TEMBUSU Asia Consulting (TAC)

## ABOUT THE COMPANY:

At TEMBUSU Asia, we place the SDGs at the heart of everything we do. In the efforts of fulfilling SDG4: Quality Education, we are conducting a series of webinars to share and promote the Sustainable Development Goals.

## ABOUT THE WEBINAR:

In Singapore's run-up to halve carbon emissions by 2030 and reach 'net zero' by 2050, business leaders are focusing on the carbon performance of their organizations. Emission intensive sectors, such as the semiconductor and specialty chemical sectors, have a crucial role to play in aligning with national and global priorities. TEMBUSU Asia has assembled a panel of experts to share their experiences, challenges and views on emissions management.
